

Tank Monitor and Customer Portal Information

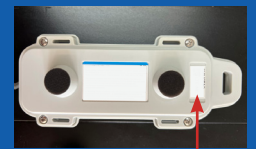

Welcome to the new autofill or tank monitor rental program! Get to know your tank monitor and benefits below:

How it Works

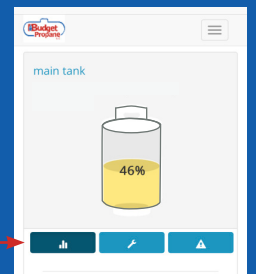

- The monitor will transmit a daily tank level reading to our office and to an online portal.
- Check your level any time using a computer or smart phone.
- For autofill customers, we will dispatch a delivery when the tank is between 15 and 30%.
- Will call customers can let us know when they are ready for a delivery any time the tank will hold at least 100 gallons.

Customer Portal

- Visit app.tankutility.com to access customer portal.
- Set up a customer account with your email and device ID found on the bottom of the tank monitor.
- Use the blue menu buttons to see your usage history, tank specifics, and account information.

Device ID

Program Agreement

- Once deployed, there will be a monthly monitoring fee of \$9.95.
- A credit card must remain on file to be billed monthly for monitoring.
- Monitoring is contingent upon service with Budget Propane. If you fill with another company, we will pick up the monitor.

*Monitors are property of Budget Propane under warranty with Tank Utility. Budget Propane will handle any warranty claims and change monitor batteries. A driver will perform a visual inspection of the monitor at each delivery. Customer may be held liable for damage to monitor due to tampering or misuse.
